...Creates win—win
opportunities...

EMPLOYEE VOLUNTEERS Win...

When they have an opportunity to work in a completely new environment and develop transferable skills. The new skills that employees can develop—and the new ideas that they can bring back to the workplace—has been proven to enhance creativity and performance in their jobs.

LETHBRIDGE Wins...

Because businesses that support employee volunteerism are demonstrating that they take their corporate social responsibility very seriously.

EMPLOYERS Win...

When hiring people who have demonstrated a commitment to volunteerism. Employee volunteers are in effect company ambassadors and can enhance the reputation of their company in the community. *
